- This Ordinance is recommended pursuant to the provisions of the Illinois Cable and Video Competition Law of 2007 (the "Act").
- The Act establishes a new regulatory framework to ensure equal treatment and parity among cable and video service providers in Illinois and provides for a system of State licensing.
- The Act authorizes units of local government including counties to impose and collect Service Provider and PEG (public, education and governmental) Access Support fees from licensed holders.
- If adopted, the Ordinance imposes a Service Provider Fee of five percent (5%) of the holder's gross revenues. Existing cable service providers also pay the same fee, pursuant to the County's cable television ordinance.
- If adopted, the Ordinance also imposes a PEG Support Fee Service Provider Fee on any holder providing cable service or video service in the County in addition to the 5% Service Provider Fee. This amount imposed would be one percent (1%) of the holder's gross

revenues or, if greater, the percentage of gross revenues that incumbent cable operators pay to the County.

- The Act requires local governments to adopt and implement these fees by January 1, 2008. This recommended Ordinance shall be effective upon the Board's approval and Publication, as required by law.

  - Lake County has participated in the Intergovernmental Transfer Program (IGT) with the Illinois Department of Healthcare and Family Services (HFS) since its inception.
  - In December of 2006, the program was restructured to require Counties to transfer payments, based on projected Medicaid bed days, to the State before Counties were paid for actual Medicaid bed days.
