BID NUMBER 13054

The video files of the sanitary sewers to be relined which are provided under the terms of GC 4.02 and SC 4.07 are very large, totaling over 18 gigabytes. Some bidders may find it impractical to use the FTP download depending upon the connection speed of their accessing computer.

Video files for Sections 1, 2 and 3 can be downloaded from the ftp site as they represent typical conditions of pipe within all 5 sections. Video files for sections 4 and 5 or all 5 sections are available on DVD by request to the project manager:
